

Create a model to predict the score of a player in a season by giving the rank of the player as input

Rank	1,	2,	3,	4,	5,	6,	7,	8,	9,	10
Score	998,	996,	994,	992,	990,	988,	986,	984,	982,	980

- 1) Predict the score of a player with rank 2
- 2) Predict the score of player with rank 55
